Monster Anthropology in Australasia and Beyond

The monsters that anthropologists encounter in their field sites differ significantly from those portrayed and analyzed in the thriving interdisciplinary literature—anthropology's monsters haunt off the pages of books and screens of televisions. These monsters come in all sorts of (non-gothic) guises, and their presence is inextricably intertwined with the lives of those they haunt. Offering a dialogue between anthropology and literature, media, and cultural studies, this book presents fine-grained ethnographic vignettes of monsters dwelling in the contemporary world, from Aboriginal Australia in the Pacific to Asia and Europe.
