The Emissary: A Novel

Patricia Cori

The Emissary: A Novel Patricia Cori

In her debut novel, Patricia Cori weaves her visionary message into a page-turning fantasy adventure that speaks to the very soul of the planet.

Within minutes of one another, three bone-chilling events take place around the globe. In Los Angeles, hundreds of blackbirds drop out of the sky, zapped to their death, mid-flight; in Maine, miles of beach are covered in tens of thousands of dead fish; in New Zealand, 150 whales and dolphins lie dead or dying on the beach.

Jamie Hastings, a renowned psychic researcher and telepath, forges a deep soul connection with the dying whales that leads to her troubled journey at sea as a consultant for USOIL, a Texas based oil company that's drilling in the most pristine waters of the Pacific Northwest, looking for oil--or so it seems. A bizarre unfolding of events aboard ship sparks the unraveling of a truly evil plan of a secret government that is intent upon silencing the music of the oceans and destroying all life on the planet.

As impossible as it is to imagine anything as sinister as the shadow Jamie faces in her mission to save the earth from the doomsday weapon bearing down on the world, the fact is that it is actually happening, at this very moment, while most of the world is asleep--or simply unaware.

One woman has been chosen to be the voice, against the forces of evil, of the cherished creatures of the sea. She is the emissary.

The question is: Is there still time for her to stop it?
