# Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications)

*D.A. Klyushin, S.I. Lyashko, D.A. Nomirovskii, Yu.I. Petunin, Vladimir Semenov*

## **Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications)** D.A. Klyushin, S.I. Lyashko, D.A. Nomirovskii, Yu.I. Petunin, Vladimir Semenov

Abstract models for many problems in science and engineering take the form of an operator equation. The resolution of these problems often requires determining the existence and uniqueness of solutions to these equations. "Generalized Solutions of Operator Equations and Extreme Elements" presents recently obtained results in the study of the generalized solutions of operator equations and extreme elements in linear topological spaces. The presented results offer new methods of identifying these solutions and studying their properties. These new methods involve the application of a priori estimations and a general topological approach to construct generalized solutions of linear and nonlinear operator equations. The monograph is intended for mathematicians, graduate students and researchers studying functional analysis, operator theory, and the theory of optimal control.

**From reader reviews:**

**Anthony Youngblood:**

This book untitled Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) to be one of several books this best seller in this year, that's because when you read this guide you can get a lot of benefit into it. You will easily to buy this kind of book in the book shop or you can order it by means of online. The publisher in this book sells the e-book too. It makes you more readily to read this book, as you can read this book in your Mobile phone. So there is no reason to you personally to past this publication from your list.

**Carol Johnson:**

The book untitled Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) is the e-book that recommended to you to read. You can see the quality of the book content that will be shown to an individual. The language that publisher use to explained their way of doing something is easily to understand. The copy writer was did a lot of analysis when write the book, and so the information that they share to you personally is absolutely accurate. You also could get the e-book of Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) from the publisher to make you a lot more enjoy free time.

**Nadine Taylor:**

This Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) is fresh way for you who has interest to look for some information since it relief your hunger associated with. Getting deeper you into it getting knowledge more you know or perhaps you who still having little bit of digest in reading this Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) can be the light food for you because the information inside this particular book is easy to get by means of anyone. These books develop itself in the form that is certainly reachable by anyone, yep I mean in the e-book form. People who think that in book form make them feel drowsy even dizzy this guide is the answer. So there is no in reading a guide especially this one. You can find actually looking for. It should be here for anyone. So , don't miss it! Just read this e-book variety for your better life in addition to knowledge.

**Becky Duncan:**

You can get this Generalized Solutions of Operator Equations and Extreme Elements: 55 (Springer Optimization and Its Applications) by look at the bookstore or Mall. Merely viewing or reviewing it may to be your solve issue if you get difficulties to your knowledge. Kinds of this guide are various. Not only by written or printed but additionally can you enjoy this book by means of e-book. In the modern era similar to now, you just looking because of your mobile phone and searching what their problem. Right now, choose

your current ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose right ways for you.
