Against the Terror of Neoliberalism: Politics Beyond the Age of Greed (Cultural Politics and the Promise of Democracy) Henry A. Giroux

With its dream worlds of power, commercialization, and profit making, neoliberalism has ushered in new Gilded Age in which the logic of the market now governs every aspect of media, culture, and social life—from schooling to health care to old age. As the social contract becomes a distant memory, the new "corporate state" distances itself from workers and minority groups, who become more disposable in a new age of uncertainty and manufactured fear. This is the only book to connect the history, ideology, and consequences of neoliberal policies to education and cultural issues that pervade almost every aspect of daily life. A significantly revised and updated new version of Giroux's 2003 book, *The Terror of Neoliberalism*, this book points to ways in which neoliberal ideology can be resisted, and how new forms of citizenship and collective struggles can be forged, to reclaim the meaning both of a substantive politics and of a democratic society. *Against the Terror of Neoliberalism* was featured in the *New York Times* in the Stanley Fish blog: Stanley Fish Blog
