Machine Vision Algorithms in Java: Techniques and Implementation

Paul F. Whelan, Derek Molloy

Machine Vision Algorithms in Java: Techniques and Implementation Paul F. Whelan, Derek Molloy

This book presents key machine vision techniques and algorithms, along with the associated Java source code. Special features include a complete self-contained treatment of all topics and techniques essential to the understanding and implementation of machine vision; an introduction to object-oriented programming and to the Java programming language, with particular reference to its imaging capabilities; Java source code for a wide range of real-world image processing and analysis functions; an introduction to the Java 2D imaging and Java Advanced Imaging (JAI) API; and a wide range of illustrative examples.
