“By far the best college guide, for both its honesty and its insights.” —Thomas Sowell

Over the past decade, *Choosing the Right College* has established itself as the indispensable resource for students—and parents—who want the unvarnished truth about America’s top colleges and universities. It is the most in-depth, independently researched college guide on the market, using on-campus sources to turn up the best—and worst—aspects of nearly 150 schools. Just as important, *Choosing the Right College* covers the intellectual, political, and social conditions that really matter, including:

- The integrity and rigor of the curriculum
- Which courses and professors to take—and which to avoid
- The prevalence of politics in the classroom and the state of free speech—all highlighted with ISI’s unique “traffic light”
- Living arrangements, safety, and other keys to student life
- How to get a real education at any school

Beyond all that, this brand-new edition of *Choosing the Right College* features a host of innovations, including: “So You’re Looking For...,” top-five lists of colleges for all types of students; a quick list of each school’s strengths and weaknesses; an insider’s look at the pros and cons of online education; and more.

This new edition of *Choosing the Right College* also provides the financial information families need in this age of soaring tuition. What are the most overpriced colleges—and which are relatively good values? What is the average student-debt load? To cap it all off, *Choosing the Right College* introduces the groundbreaking feature “Blue Collar Ivies”—in-depth reports on the best affordable colleges in all fifty states.

Choosing the Right College 2014–15 will completely change the way young people make a life-altering decision.
