**Pacific Asia (Routledge Introductions to Development)** David W. Drakakis-Smith

Pacific Asia - from Burma to Papua New Guinea to Japan - is the most dynamic and productive region in the developing world, the result of an economic explosion fuelled by industrial activity. This is where the Green Revolution began, where more women are employed in factory work than anywhere else; the region is also the most predominately socialist in the Third World. David W. Smith assesses Pacific Asia both in terms of its historical development and the present global system, placing general development issues in their local contexts. The book will be an invaluable introduction to the region.
