# Chemical Process Technology

Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

**Chemical Process Technology** Jacob A. Moulijn, Michiel Makkee, Annelies E. van Diepen

With a focus on actual industrial processes, e.g. the production of light alkenes, synthesis gas, fine chemicals, polyethene, it encourages the reader to think “out of the box” and invent and develop novel unit operations and processes. Reflecting today’s emphasis on sustainability, this edition contains new coverage of biomass as an alternative to fossil fuels, and process intensification.

## The second edition includes:

- New chapters on Process Intensification and Processes for the Conversion of Biomass
- Updated and expanded chapters throughout with 35% new material overall
- Text boxes containing case studies and examples from various different industries, e.g. synthesis loop designs, Sasol I Plant, Kaminsky catalysts, production of Ibuprofen, click chemistry, ammonia synthesis, fluid catalytic cracking
- Questions throughout to stimulate debate and keep students awake!
- Richly illustrated chapters with improved figures and flow diagrams

*Chemical Process Technology, Second Edition* is a comprehensive introduction, linking the fundamental theory and concepts to the applied nature of the subject. It will be invaluable to students of chemical engineering, biotechnology and industrial chemistry, as well as practising chemical engineers.

## From reviews of the first edition:

*“The authors have blended process technology, chemistry and thermodynamics in an elegant manner... Overall this is a welcome addition to books on chemical technology.”* – The Chemist

*“Impressively wide-ranging and comprehensive... an excellent textbook for students, with a combination of fundamental knowledge and technology.”* – Chemistry in Britain (now Chemistry World)

**From reader reviews:**

**Carson McDonald:**

What do you think of book? It is just for students since they're still students or it for all people in the world, what the best subject for that? Merely you can be answered for that problem above. Every person has distinct personality and hobby per other. Don't to be compelled someone or something that they don't wish do that. You must know how great along with important the book Chemical Process Technology. All type of book is it possible to see on many options. You can look for the internet options or other social media.

**Jennifer Johnson:**

Information is provisions for folks to get better life, information these days can get by anyone with everywhere. The information can be a information or any news even a problem. What people must be consider while those information which is inside the former life are challenging be find than now could be taking seriously which one works to believe or which one often the resource are convinced. If you have the unstable resource then you buy it as your main information there will be huge disadvantage for you. All of those possibilities will not happen with you if you take Chemical Process Technology as the daily resource information.

**Phillip Vargas:**

Chemical Process Technology can be one of your starter books that are good idea. We recommend that straight away because this guide has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but delivering the information. The article writer giving his/her effort to set every word into joy arrangement in writing Chemical Process Technology but doesn't forget the main point, giving the reader the hottest as well as based confirm resource details that maybe you can be one among it. This great information can easily drawn you into completely new stage of crucial contemplating.

**Lauren Miner:**

Guide is one of source of knowledge. We can add our know-how from it. Not only for students but in addition native or citizen will need book to know the up-date information of year to be able to year. As we know those guides have many advantages. Beside we add our knowledge, also can bring us to around the world. Through the book Chemical Process Technology we can take more advantage. Don't someone to be creative people? To be creative person must prefer to read a book. Only choose the best book that acceptable with your aim. Don't possibly be doubt to change your life with this book Chemical Process Technology. You can more attractive than now.
