Indigenous Studies and Engaged Anthropology: The Collaborative Moment

Indigenous Studies and Engaged Anthropology: The Collaborative Moment

Advancing the rising field of engaged or participatory anthropology that is emerging at the same time as increased opposition from Indigenous peoples to research, this book offers critical reflections on research approaches to-date. The engaged approach seeks to change the researcher-researched relationship fundamentally, to make methods more appropriate and beneficial to communities by involving them as participants in the entire process from choice of research topic onwards. The aim is not only to change power relationships, but also engage with non-academic audiences.
