All Women Are Healers: A Comprehensive Guide to Natural Healing Diane Stein

“By the study, experimentation and practice of natural healing, women are changing and charting the future of health care. Despite heavy resistance or lack of recognition from patriarchal medicine, they are nevertheless making positive changes that will continue and increase. Women’s emphasis on one-to-one work practiced in mutual agreement and participation is very different from mechanized and big-money medicine, and has results and successes far beyond expectations. The emphasis on self-healing returns health care to the consumer, to women’s lives and bodies, for the first time in centuries. The medical system cannot control a movement held in the hands of women, though it may try. Women are taking control again of healing, our daughter-right, for the first time since the matriarchies and the Inquisition.”—from the Introduction
