Budget constraints and optimization in sponsored search auctions (Intelligent Systems)

Yanwu Yang, Feiyue Wang

Budget constraints and optimization in sponsored search auctions (Intelligent Systems) Yanwu Yang, Feiyue Wang

The Intelligent Systems Series publishes reference works and handbooks in three core sub-topic areas: Intelligent Automation, Intelligent Transportation Systems, and Intelligent Computing. They include theoretical studies, design methods, and real-world implementations and applications. The series' readership is broad, but focuses on engineering, electronics, and computer science.

Budget constraints and optimization in sponsored search auctions takes into account consideration of the entire life cycle of campaigns for researchers and developers working on search systems and ROI maximization. The highly experienced authors compiled their knowledge and experience to provide insight, algorithms and development techniques for successful optimized/constrained systems. The book presents a cutting-edge budget optimization approach that embraces three-level budget decisions in the life cycle of search auctions: allocation across markets at the system level, distribution over temporal slots at the campaign level, and real-time adjustment at the keyword level.

- Delivers a systematic overview and technique for understanding budget constraints and ROI optimization in sponsored search auction systems, including algorithms and developer guides for a range of scenarios
- Explores effects of constraints on mechanisms, bidding and keyword strategies, and the strategies for budget optimization that developers can employ
- An informative reference source for both software and systems developers working in the search auctions, marketing and sales strategy optimization, services development for online marketing and advertisement, e-commerce, social and economic networking

From reader reviews:

Jordan Weatherspoon:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to understand everything in the world. Each guide has different aim or goal; it means that guide has different type. Some people sense enjoy to spend their a chance to read a book. They are reading whatever they consider because their hobby is definitely reading a book. What about the person who don't like reading through a book? Sometime, person feel need book if they found difficult problem or perhaps exercise. Well, probably you will want this Budget constraints and optimization in sponsored search auctions (Intelligent Systems).

Teresa Sullivan:

The book untitled Budget constraints and optimization in sponsored search auctions (Intelligent Systems) contain a lot of information on it. The writer explains her idea with easy technique. The language is very easy to understand all the people, so do definitely not worry, you can easy to read it. The book was compiled by famous author. The author will take you in the new era of literary works. You can read this book because you can read more your smart phone, or gadget, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can open up their official web-site along with order it. Have a nice study.

Mark Bock:

As we know that book is important thing to add our information for everything. By a guide we can know everything we wish. A book is a group of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This e-book Budget constraints and optimization in sponsored search auctions (Intelligent Systems) was filled with regards to science. Spend your spare time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading the book. If you know how big advantage of a book, you can feel enjoy to read a publication. In the modern era like at this point, many ways to get book that you simply wanted.

Sean Jones:

Do you like reading a e-book? Confuse to looking for your favorite book? Or your book was rare? Why so many query for the book? But almost any people feel that they enjoy regarding reading. Some people likes reading through, not only science book but in addition novel and Budget constraints and optimization in sponsored search auctions (Intelligent Systems) or maybe others sources were given know-how for you. After you know how the great a book, you feel wish to read more and more. Science publication was created for teacher or students especially. Those publications are helping them to include their knowledge. In other case, beside science book, any other book likes Budget constraints and optimization in sponsored search auctions (Intelligent Systems) to make your spare time considerably more colorful. Many types of book like this one.
