Fully Integrated Data Environments: Persistent Programming Languages, Object Stores, and Programming Environments (ESPRIT Basic Research Series)

Fully Integrated Data Environments: Persistent Programming Languages, Object Stores, and Programming Environments (ESPRIT Basic Research Series)

This book presents the work of researchers in the Esprit Fully Integrated Data Environments (FIDE) projects which had the goal of substantially improving the quality of complex application systems while massively reducing the cost of building and maintaining them. It reports on the design and development of new integrated environments to support the construction and operation of persistent application systems, and on the principles employed to design, test, and implement such systems.
