Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment)

J.C.J.M. van den Bergh, J. Hoekstra, R. Imeson, P.A.L.D. Nunes, A.T. de Blaeij

This book offers an environmental-economic analysis of exploited ecosystems with a clear policy orientation. The study tries to move beyond traditional economic fishery analysis in two respects. First, several theoretical and numerical models are offered that combine economic and ecological descriptions of fisheries. These models give special attention to spatial processes as well as to combining exploitation and conservation objectives. Second, valuation and stakeholder concerns are addressed in empirical analyses employing both qualitative and quantitative approaches. The latter is done by using advanced methods of monetary valuation. In addition, the first part of the book presents short, introductory overviews of integrated assessment, economic modeling of fishery management, and incorporating uncertainty in fisheries analysis. These introductions will allow readers of a variety of disciplines to create a sufficient background so as to be able to read later parts of the book. This first part also includes a chapter in which traditional and recent ideas on fisheries policy are critically discussed and where possible synthesized. Many of the applied studies reported relate to a multifunctional marine ecosystem area in the Netherlands, known as the Wadden Sea ('Waddenzee'), which extends to Germany and Denmark. The resulting approaches, models and policy insights are nevertheless sufficiently general and innovative to be of interest to a broad audience.

From reader reviews:

Diane Worrell:

Here thing why this kind of Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) are different and reputable to be yours. First of all reading a book is good but it depends in the content of it which is the content is as tasty as food or not. Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) giving you information deeper as different ways, you can find any reserve out there but there is no guide that similar with Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment). It gives you thrill studying journey, its open up your personal eyes about the thing which happened in the world which is perhaps can be happened around you. You can bring everywhere like in recreation area, café, or even in your approach home by train. If you are having difficulties in bringing the branded book maybe the form of Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) in e-book can be your alternate.

Annie Adcock:

The actual book Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) has a lot info on it. So when you read this book you can get a lot of profit. The book was compiled by the very famous author. Tom makes some research ahead of write this book. This specific book very easy to read you can find the point easily after reading this book.

Kevin Ortiz:

You may spend your free time to learn this book this reserve. This Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) is simple to bring you can read it in the playground, in the beach, train and also soon. If you did not possess much space to bring the printed book, you can buy typically the e-book. It is make you quicker to read it. You can save the actual book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.

Peggy Dunn:

Do you like reading a reserve? Confuse to looking for your favorite book? Or your book seemed to be rare? Why so many question for the book? But any kind of people feel that they enjoy regarding reading. Some people likes looking at, not only science book but novel and Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) or perhaps others sources were given know-how for you. After you know how the good a book, you feel want to read more and more. Science e-book was created for teacher or maybe students especially. Those publications are helping them to increase their knowledge. In various other case, beside science e-book, any other book likes Bioeconomic Modelling and Valuation of Exploited Marine Ecosystems: 28 (Economy & Environment) to make your spare time far more

colorful. Many types of book like this one.
