Mastering 3D Printing (Technology in Action) Joan Horvath

Mastering 3D Printing shows you how to get the most out of your printer, including how to design models, choose materials, work with different printers, and integrate 3D printing with traditional prototyping to make techniques like sand casting more efficient.

You've printed key chains. You've printed simple toys. Now you're ready to innovate with your 3D printer to start a business or teach and inspire others.

Joan Horvath has been an educator, engineer, author, and startup 3D printing company team member. She shows you all of the technical details you need to know to go beyond simple model printing to make your 3D printer work for you as a prototyping device, a teaching tool, or a business machine.

What you'll learn

- The history of 3D printers and the differences between them
- Why open source is important in 3D printing
- How to create models and use G-code with your printer
- How to make a challenging print work well
- How to choose and print with different materials
- How to integrate 3D printing into traditional prototyping processes

Who this book is for

This book is for new 3D printer owners, makers of all kinds, entrepreneurs, technology educators, and anyone curious about what you can do with a 3D printer.

From reader reviews:

Marcus Musick:

What do you concerning book? It is not important together with you? Or just adding material when you really need something to explain what the ones you have problem? How about your time? Or are you busy person? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have spare time? What did you do? Everyone has many questions above. They have to answer that question simply because just their can do that. It said that about book. Book is familiar in each person. Yes, it is correct. Because start from on jardín de infancia until university need this kind of Mastering 3D Printing (Technology in Action) to read.

Dollie Simmons:

This Mastering 3D Printing (Technology in Action) book is not really ordinary book, you have after that it the world is in your hands. The benefit you receive by reading this book is information inside this publication incredible fresh, you will get facts which is getting deeper you read a lot of information you will get. This specific Mastering 3D Printing (Technology in Action) without we realize teach the one who reading it become critical in imagining and analyzing. Don't become worry Mastering 3D Printing (Technology in Action) can bring whenever you are and not make your tote space or bookshelves' come to be full because you can have it with your lovely laptop even telephone. This Mastering 3D Printing (Technology in Action) having excellent arrangement in word and layout, so you will not really feel uninterested in reading.

Joan Munoz:

Here thing why this Mastering 3D Printing (Technology in Action) are different and trusted to be yours. First of all studying a book is good but it really depends in the content of the usb ports which is the content is as delicious as food or not. Mastering 3D Printing (Technology in Action) giving you information deeper as different ways, you can find any guide out there but there is no publication that similar with Mastering 3D Printing (Technology in Action). It gives you thrill looking at journey, its open up your own personal eyes about the thing in which happened in the world which is might be can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your way home by train. In case you are having difficulties in bringing the imprinted book maybe the form of Mastering 3D Printing (Technology in Action) in e-book can be your alternative.

Sergio Terry:

Many people spending their time frame by playing outside along with friends, fun activity together with family or just watching TV all day every day. You can have new activity to shell out your whole day by reading a book. Ugh, do you consider reading a book will surely hard because you have to use the book everywhere? It all right you can have the e-book, getting everywhere you want in your Touch screen phone. Like Mastering 3D Printing (Technology in Action) which is getting the e-book version. So , try out this book? Let's view.
