Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology

Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology

Receptors and Cellular Pharmacology is a collection of the proceedings of the Sixth International Congress of Pharmacology held in Helsinki, Finland, on July 20-25, 1975 and organized by the Finnish Pharmacological Society. The papers explore developments relating to receptors and cellular pharmacology and address a wide range of topics such as the hydrophobic properties of the neuromuscular blocking agents and the use of toxins as tools in receptor studies.

Comprised of 21 chapters, this volume begins with an introduction to histamine receptors, their pharmacological taxonomy and classification, their presence in the gastric mucosa, and their applications in medicine. The discussion then turns to pharmacological investigations on cells in culture; the acetylcholine receptor of intact and cultured chicken retina cells; actions of neurotoxins on the acetylcholine receptor; and the isolation and characterization of membrane receptors. Subsequent chapters deal with cyclic nucleotides as mediators of drug action, with particular reference to the mechanism of the relaxation-promoting effects of epinephrine on the mammalian heart.

This book should be of interest to pharmacologists, internists, psychiatrists, neurologists, and anesthesiologists.

From reader reviews:

Sherrill Height:

Information is provisions for people to get better life, information nowadays can get by anyone from everywhere. The information can be a information or any news even a concern. What people must be consider while those information which is within the former life are hard to be find than now is taking seriously which one is appropriate to believe or which one the actual resource are convinced. If you find the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology as your daily resource information.

Robert Wallace:

Playing with family inside a park, coming to see the ocean world or hanging out with close friends is thing that usually you will have done when you have spare time, after that why you don't try factor that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology, you may enjoy both. It is great combination right, you still would like to miss it? What kind of hang type is it? Oh come on its mind hangout folks. What? Still don't understand it, oh come on its called reading friends.

William Wright:

Would you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Try to pick one book that you never know the inside because don't evaluate book by its include may doesn't work at this point is difficult job because you are afraid that the inside maybe not since fantastic as in the outside seem likes. Maybe you answer might be Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology why because the wonderful cover that make you consider regarding the content will not disappoint you. The inside or content is definitely fantastic as the outside as well as cover. Your reading sixth sense will directly show you to pick up this book.

Charlotte Lee:

In this era which is the greater particular person or who has ability to do something more are more important than other. Do you want to become certainly one of it? It is just simple solution to have that. What you must do is just spending your time almost no but quite enough to get a look at some books. One of many books in the top record in your reading list will be Receptors and Cellular Pharmacology: Proceedings of The Sixth International Congress of Pharmacology. This book that is qualified as The Hungry Inclines can get you closer in getting precious person. By looking right up and review this book you can get many advantages.
