Provides an insider's view of the special education process for parents and teachers. This book explores the special education process—from testing and diagnosis to IEP meetings and advocating for special needs children. Step by step the authors reveal the stages of identification, assessment, and intervention, and help readers to better understand special needs children's legal rights and how to become an active, effective member of a child's educational team. Grounded in more than twenty-five years of working with parents and educators, the authors provide significant insight into what they have learned about the special education. This book fills the gap in the literature for the millions of children receiving special education services and the parents who are clamoring for information on this topic.

- Includes valuable tools, checklists, sample forms, and advice for working with special education students
- Demystifies the special education process, from testing and diagnosis to IEP meetings and advocating for children

This new edition discusses Response-to-Intervention (RTI), a new approach to diagnosing learning disabilities in the classroom; has an expanded coverage of autism spectrum disorders and bipolar disorder; and includes a revamped Resources section.
