The resonating effect of the metaphysics of this book transcends into a cosmic perspective – you literally feel like being on a flight across time and space into the heart of the universe. Multiple dimensions open up as you find yourself traveling on the wings of Gabriel. Transcending on the Wings of Gabriel has connotations in multiple symbolisms. One is from the authors own name; second is of the Archangel Gabriel and the common message of love, compassion and humanity conveyed via the Archangel to all the prophets, seers and sages; the third is of the poetic treatise, Gabriel's Wing, of Sir Muhammed Iqbal. The metaphysical aphorisms of Gabriel Iqbal are like maxims, adages or koans expressed intuitively by the author to attract fresh imagination capacities that are directed towards seeking simple yet in-comprehensive possibilities and proactive solutions. It is a breakthrough in human emancipation and spirit with a creative outlook of empirical science together with unbounded spiritual possibilities and collective well-being for life. In a sea of change that human beings are facing on a regular basis, the barriers between fact and fiction keep on growing, such times necessitate an emancipated metaphysical view of existence that can bridge the gaps and lead us towards fresh inspiration. This collected compilation of Gabriel's metaphysical aphorisms from his various works is a testimony to his efforts in charting out fresh perspectives for achieving collective equanimity and balance.
