Tek Net (The TekWar Series Book 9) William Shatner

Private investigator Jake Cardigan and his partner, Sid Gomez, must race to save a woman trapped in the deadly crossfire of a violent war between rival TekLords

William “Captain Kirk” Shatner of *Star Trek* fame returns with his ninth action-packed TekWar adventure, certain to thrill his devoted legions of science fiction readers.

In the year 2122 an addictive new form of the fantasy-enabling electronic drug Tek is about to hit the market. This version, delivered to users over computer networks, would eliminate the need for Tek chips, thereby putting the old-school TekLords out of business. Jill Bernardino, the ex-wife of Sid Gomez, loyal partner of private eye Jake Cardigan, has been looking into this new development closely—a little *too* closely—and now finds herself in serious, possibly inescapable peril. Caught in the middle of a vicious international drug war, Jill is taken prisoner, and only Cardigan and Gomez can rescue her. But their efforts will put them directly in the crosshairs of warring squads of Tek-trade killers in a bloody cartel war.
