Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy) X. Allen Li, X. Allen

Modern medical imaging and radiation therapy technologies are so complex and computer driven that it is difficult for physicians and technologists to know exactly what is happening at the point-of-care. Medical physicists responsible for filling this gap in knowledge must stay abreast of the latest advances at the intersection of medical imaging and radiation therapy. This book provides medical physicists and radiation oncologists current and relevant information on Adaptive Radiation Therapy (ART), a state-of-the-art approach that uses a feedback process to account for patient-specific anatomic and/or biological changes, thus delivering highly individualized radiation therapy for cancer patients. The book should also benefit medical dosimetrists and radiation therapists.

Adaptive Radiation Therapy describes technological and methodological advances in the field of ART, as well as initial clinical experiences using ART for selected anatomic sites. Divided into three sections (radiobiological basis, current technologies, and clinical applications), the book covers:

- Morphological and biological biomarkers for patient-specific planning
- Design and optimization of treatment plans
- Delivery of IMRT and IGRT intervention methodologies of ART
- Management of intrafraction variations, particularly with respiratory motion
- Quality assurance needed to ensure the safe delivery of ART
- ART applications in several common cancer types / anatomic sites

The technology and methodology for ART have advanced significantly in the last few years and accumulated clinical data have demonstrated the need for ART in clinical settings, assisted by the wide application of intensity modulated radiation therapy (IMRT) and image-guided radiation therapy (IGRT). This book shows the real potential for supplying every patient with individualized radiation therapy that is maximally accurate and precise.

From reader reviews:

Adrienne McGinnis:

Have you spare time for any day? What do you do when you have a lot more or little spare time? Yes, you can choose the suitable activity for spend your time. Any person spent their spare time to take a go walking, shopping, or went to the actual Mall. How about open or even read a book titled Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy)? Maybe it is to become best activity for you. You know beside you can spend your time with your favorite's book, you can smarter than before. Do you agree with the opinion or you have other opinion?

Catherine Benavidez:

Book is actually written, printed, or created for everything. You can understand everything you want by a publication. Book has a different type. To be sure that book is important matter to bring us around the world. Adjacent to that you can your reading expertise was fluently. A book Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy) will make you to always be smarter. You can feel considerably more confidence if you can know about every thing. But some of you think that open or reading a new book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you searching for best book or suited book with you?

Veronica Lopez:

Beside this particular Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy) in your phone, it may give you a way to get more close to the new knowledge or data. The information and the knowledge you are going to got here is fresh from the oven so don't always be worry if you feel like an previous people live in narrow commune. It is good thing to have Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy) because this book offers for you readable information. Do you at times have book but you don't get what it's about. Oh come on, that would not happen if you have this with your hand. The Enjoyable blend here cannot be questionable, just like treasuring beautiful island. Use you still want to miss the item? Find this book along with read it from today!

Lisa Walker:

A lot of publication has printed but it is different. You can get it by online on social media. You can choose the top book for you, science, comedy, novel, or whatever by simply searching from it. It is identified as of book Adaptive Radiation Therapy (Imaging in Medical Diagnosis and Therapy). You can contribute your knowledge by it. Without departing the printed book, it might add your knowledge and make you actually happier to read. It is most critical that, you must aware about book. It can bring you from one place to other place.
